

Eton Farm PRIMARY SCHOOL

My name is Imogen, and I have grown up in the SJ shire area of Byford, eventually settling in Oldbury with my partner Jon and two children. Jon and I have built and now manage two business, one of them being cattle farming and the other in the waste management industry.

After moving my children to Eton farm at the start of 2023, I quickly came to see the difference the school was making in the education, wellbeing and personal growth in my children. I applied to join the School Board and was appointed the role of secretary, which I have enjoyed as an opportunity to give back and assist with the growth and development for the future of the school.
