

Eton Farm PRIMARY SCHOOL

My name is Tricia and I offer a unique perspective to the board as my children are older and their education pre-dates the school. I developed an appreciation for the approach offered by Eton Farm Primary School after seeing my own child face unnecessary difficulties in her early school years in mainstream education. I chose to be a board member to show that appreciation and assist where I can. As Deputy President of the Shire of SJ, I bring extensive knowledge on policies and the necessary documentation that goes on in the background of any organisation. I believe this allows the school to focus on its primary role – that of teaching each student with a unique and sensitive approach, in a positive and encouraging environment. I believe Eton Farm Primary School is a very special addition to our shire, which our residents are blessed to have as an option.
